ABOUT US

Hi, we are Jason and Morgan. We share a love of humor and are often seen laughing together over some of the most random things. We have been together for 16 years after a chance meeting that turned into a lifetime partnership. Morgan fulfilled her lifelong goal of becoming a women's health nurse practitioner with the loving support and encouragement of Jason. She works at a community health clinic, providing quality care to her patients from all walks of life and backgrounds. Jason is a CNC machinist and has a passion for both creating things as well as figuring out how they work. He is a skilled metal worker who enjoys the great outdoors and spends his free time fishing, camping, and enjoying nature as much as possible. Together, we have created a life of love, humor, and adventures that almost always include our beloved American Bulldog, Penny. Weekends are typically spent cooking together, movie watching, reading books, or exploring outside.

OUR HOME & PETS

We live in a quiet neighborhood nestled in the foothills of Northern California in a one-story ranch house. Our backyard is dotted with pine trees and inhabited by many woodland creatures. Both of us were born and raised here and feel it is an ideal area to have a family of our own. Located near rivers, lakes, and mountains, we are only a couple hours from the ocean. Our home is perfectly centered for any kind of family adventure. Penny, our American bulldog, is the perfect co-pilot for all our road trips. She loves all people, especially children.

WHAT LED US TO ADOPTION

Adoption has been an option for starting our own family since the beginning of our relationship. We both have struggled with infertility and are unable to conceive ourselves. As we are excited to have a family and become parents, we believe adoption will allow us to realize this dream. Although we understand the journey of adopting a child may be challenging, we are overjoyed to welcome a little one into our lives and offer a life filled with love and support.

MORE ABOUT

JASON

RISK marathon

Musical Group: Counting Crows

Movie: Happy Gilmore

Dream Vacation: Costa Rica

Subject in School: English, science

Book: The Dark Is Rising, Harry Potter

Our family is fun filled, loving, and exceptionally supportive. Birthdays, holidays, random weekends and weeknights are often spent together in celebration and connectedness. During football season, we cheer on our lifelong favorite teams while indulging snacks. The 4th of July is hugely celebrated with camping, fireworks, and food. This is closely followed by our annual family reunion in Montana where 40+ members- spanning 4-5 generations- gather and swap stories, cook/BBQ, go frog hunting, and play in the creek and lake. Birthdays can be month-long celebrations depending on the year. Halloween is a SPOOKTACULAR event in the Stewart household as we have established ourselves as the "GO-TO" house not only for our unparalleled decorations but also our epic candy bags given to every child who dares stop by. Thanksgiving is typically spent either at our nearby cabin or with local family members, followed by the annual craft fair and Victorian-themed street fair to kick off the holiday season. Christmas is spent with extended family and friends either in California or Oregon as we alternate years with hosting this much-anticipated extravaganza that wouldn't be complete without our competitive "RISK" tournament that has been known to last up to several days.

DEAR EXPECTANT MOTHER,

We cannot tell you enough how grateful we are to have you viewing our profile and considering adoption as a potential plan for your child. Your selflessness is a gift that will be honored for life. The love you have for your baby will never be forgotten as we understand how incredibly difficult and complex this decision must be to make. We want you to know your strength, love, and courage are recognized and appreciated. If chosen as adoptive parents, we vow to love, honor, encourage, support, and provide your child with a safe and loving environment in which to grow. We will ensure his or her heritage is respected and integrated into their upbringing so they may feel the connection to their roots.

We have longed to have our own family for many years, and with the miracle adoption, we can finally fulfill this dream. We want to share with our child the beauty of their history, their birth story, and their birth family as we feel it is important for them to know just how much they are loved.

It is from the depths of our hearts that we thank you for considering us as adoptive parents. Sharing your precious baby with us is a gift we can never repay, but we promise to love and support them throughout their entire life.

With Love,

MORGAN & JASON
