

BRETT + SAM

our story

ABOUT US

Brett was born and raised in New Hampshire and attended college in Boston. His love for his family brought him back to New Hampshire, where we met. Sam was born and raised in Colorado and moved to New Hampshire to pursue his career. We have built our lives together in beautiful New England. We have traveled to many wonderful destinations together and look forward every day to traveling with our son or daughter. When we are not traveling, we are fortunate to experience the beautiful seasons that New Hampshire offers. We enjoy boating and hiking in the summer, as well as the beauty and activities of New England winters.

OUR HOME + PET

Our home is full of love, dog toys, and laughter. We recently moved into our new home that we just finished building. Our new home is within walking distance of the general store, library, lake, and many other activities. At home, we enjoy cooking and eating our meals together. We enjoy spending time on the deck with our Labrador, Macie. We are fortunate to have a wonderful niece in our lives, along with another niece or nephew on the way! We look forward to welcoming our own child to the crazy cousin crew!

WHAT LED US TO ADOPTION

When we first met, we knew that family was number one. We have always talked about starting our family and sharing the love, memories, and values we experienced as children. As time went on, we accomplished so many things together. Although we have these accomplishments together, something is still missing. We want to have a son or daughter to share our lives with. We dream about school plays, sports, family vacations, birthday parties, and graduations. Adoption is the route for us to make these wonderful memories, share our immense love, and be the best dads we can be.

OUR LIFE
together

TV SHOW: Schitt's Creek, The Crown
SUBJECT IN SCHOOL: Science
BOOK: Harry Potter

OUR FAMILY AND *traditions*

In our family, holidays are very important. The entire family gets together and celebrates all of them. Some of our favorite holiday traditions are Christmas Eve at Nana's and Christmas morning at our parents' house. Recently, we have started a new tradition of cooking Thanksgiving dinner for our entire family. Brett secretly enjoys decorating the table more than he enjoys cooking—thankfully, Sam handles the cooking!

Our extended family consists of an aunt and uncle and their two amazing daughters. We also have another aunt and uncle and their daughter. Sunday dinners with our parents and family are something we look forward to every week. We cannot wait to start building these traditions and memories with our son or daughter.

DEAR
EXPECTANT
mother

First, we want to share how deeply grateful we are that you are considering this difficult decision. We know you must have the biggest heart and care so deeply about your child. We want you to know: if you choose us to love your child for the rest of their life, we will be there for you during this process. We will wrap you in kindness, love, and support. You will not be alone during this difficult journey.

If you choose us, your child will come to a home filled with love, amazing memories, and unwavering support. We will ensure your child is raised to be kind, caring, and loving, just like we were raised. Your child will live in a home full of laughter, family, memories, and connections. We will start our days over breakfast, hearing about their amazing dreams from the previous night. We will plan our days to be adventurous and educational. We will read many bedtime stories, allowing us to create memories we will cherish.

We love our Yellow Lab, and she will welcome your child into our home. We will enjoy the outdoors, learning, wonderful vacations, and making great memories. Every time we go to Disney World, all we can imagine is having a son or daughter with us to make those special memories.

Thank you again for considering this very difficult decision. We look forward to learning about you and sharing with you the love that we will share with your child.

With love,

SAM + BRETT
