## ABOUT US

Hi! We're Morgan and Stephanie! We're both huge outdoor enthusiasts and love taking walks through our small town, riding bikes, kayaking, camping, or just being outside at our home. If we were to describe what a perfect evening looks like to us, we'd say it'd be sitting around a campfire chatting with our friends or playing games. Traveling is also high on our list of fun activities, especially if it involves flying! Our two greatest blessings are Kensley (7) and Cayden (5), and we couldn't imagine life without them. Morgan works for a local feed business and goes to farms every day to deliver feed. Stephanie is a stay-at-home mom aka a jack of all trades! When she has a slow moment, she can be found putting around in our garden or swinging in her favorite lounge chair.

## OUR HOME + PETS

We love our small town and the community around us. Our house sits back off the road down a half mile-long lane, surrounded by fields and pasture. We love that the kids can play outside all day and we don't have to worry about them getting on the road. Our family also loves dogs, and we currently have three big, slobbery love bugs. Part of the reason for having dogs is to give our kids the experience and responsibility of raising puppies. About twice a year, we have a litter of puppies, and the kids love being hands on with the birth and do a fantastic job with socializing them!

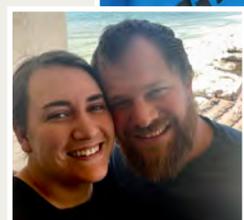

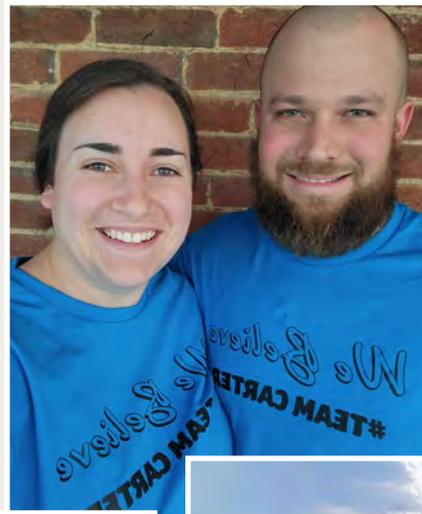

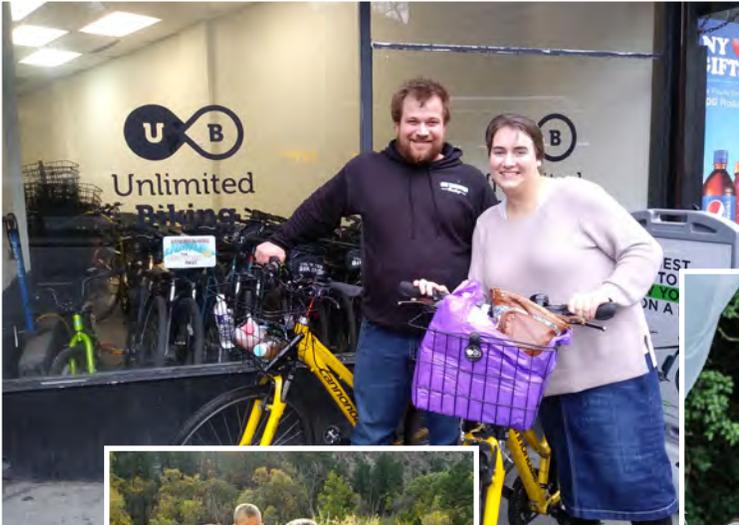

## *What led us to adoption*

We've always known we wanted adoption to be a part of our story. Because of Stephanie's path in life, Kensley was born before we got married, and Morgan made the decision to adopt her and make it so she would be his forever. We both want a large family, but after the birth of Cayden, we were faced with secondary infertility. Though it's been a hard path to walk, it's brought us to this point, and we're so excited to see what God has planned for us!

## OUR FAMILY +

# *traditions*

We are so blessed to have both of our families live less than ten minutes from us. We are especially close to Morgan's family and often end up over there when we have nothing else to do. They live on a big dairy farm, and the kids beg to go back to see the cows or get milk if our milk jug is empty. It's so handy to have access to fresh milk whenever we want it, and the kids think there's nothing better!

We both have three siblings each, and our kids are the only grandkids. Both Kensley and Cayden are well loved and spoiled rotten! Every year we get a cabin with Morgan's family, and it's the highlight of our year. Morgan, along with his brothers and dad, enjoys fishing, and the last couple of times we've gone, they've brought the boats along to go out and fish. It makes Cayden feel like a big kid when he gets to go out with them!

DEAR

*expectant mother*

We can't begin to imagine how difficult of a decision you are facing and all the emotions you are feeling. Oh dear momma, we admire you and your strength, so much! They say a mother's love is greater than any other, and truly, it has to be for a mom to consider adoption! We don't know your story and we don't know the events that have led you to this point, but we have

been praying for you and your child from the moment we decided to pursue adoption. It takes such a strong momma to choose another family to raise her little one, and that decision is one of the most admirable ones!

We care about you and already have such a special love for you! We are eager to meet you and walk along beside you as you navigate through this journey. We will always want the child that we adopt to know that their momma is an incredibly strong woman and that she has our deepest respect! We are also incredibly grateful for you and would be so honored to take on the responsibility of raising your dear little one! We recognize that whatever child we adopt is a huge gift and has a beginning long before we come into the picture, and we treasure that.

With love and admiration,

*Stephanie & Morgan*
