

DYLAN AND JUSTIN

ABOUT US

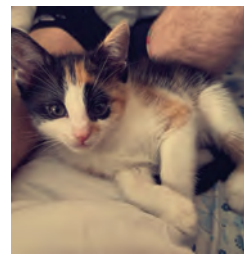

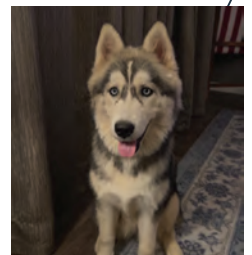

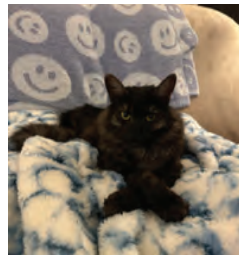

We met back in 2019, the summer before Dylan's senior year of college. Dylan left Justin's house after that first date and told his grandma, "I am going to marry that boy one day." In 2023 that statement came true. We were married on our family farm surrounded by loved ones. It was one of the best days of our lives. Dylan worked at a daycare for seven years and pursued his dream of becoming a therapist. He has worked with a variety of ages but has always had a passion for working with children. Dylan enjoys helping people work through and overcome issues that may be going on. Justin works at a building supply company where he gets to help customers design and build their outdoor living spaces. This is something Justin is really passionate about. We love to travel together, enjoy activities outdoors, and spend time at a family friend's condo at the beach.

OUR HOME & PETS

We live on Dylan's family farm. Our home was completed in 2022, a three-bedroom ranch style. The farm provides lots of land to enjoy the outdoors. We live next to Dylan's parents, who are very helpful. We are in a small town where everyone is very close and always willing to help others. The farm is located in a great school district. It is also close to some amazing parks and local swimming pools where families can enjoy time together. Our home is also located within 30 minutes of cities with shopping, entertainment, and restaurants. Our pets consist of three dogs (Oakley, Sadie, and Maya) and two cats (Bella and Cali). They are all very friendly and great with children.

WHAT LED US TO ADOPTION

It has always been a dream of ours to provide a safe, nurturing environment for a child whose mom is looking for the same. Growing up so family oriented, we have always had the desire to have our own. After our nieces were born and feeling this great deal of love for them, we knew that love would be even stronger for a child of our own. Watching friends and family who have adopted pour their love and support into their children has been so powerful. Dylan sees the impact families have on children in everyday life, and it is our dream to be able to give the same love, support, and guidance to the child we hope to adopt some day.

OUR FAMILIES & TRADITIONS

We both come from amazing family backgrounds. Dylan has his mom, dad, and sister but also was really close with his grandparents and aunt growing up. Dylan's mom's family is from Mississippi, so every summer they always go there in order to visit all of his family, which is always a good time. Dylan's dad's side of the family consists of aunts, uncles, and cousins who get together on holidays and birthdays.

Justin has a very close family as well, which consists of his mom, twin brother, sister-in-law, two nieces, and lots of extended family. We make a point to see them frequently. Justin's father passed away back in 2014, but his memory lives on through his family with stories and through Justin and his brother. He and his twin brother spent a lot of time with their cousin growing up, and he is almost like another brother to them. They are always invited on the family beach trips we take each summer.

Family is a big part in our lives as we get together frequently to spend precious time and make memories together.
