ABOUT US

Howdy! We are Justin and Trevor from Texas. We live in a small town of about 4,000 people just north of Dallas-Fort Worth and near a lake. We both grew up in small towns. We met over three years ago through mutual friends and began a long-distance relationship. Since then, we have lived in a city before making the transition to our town to open our own chiropractic office. Trevor is a financial representative on the protections team for East Texas for an automotive company. We recently got married November 11, 2023, and have two dogs, Oakley and Dallas. We bought our home here over a year ago and absolutely love this community and their support alongside our family and friends.

OUR HOME & PETS

We live in a three-bedroom, 2.5-bath home. Our school district is large, but everybody knows everyone, which makes this small Texas town so special. In fact, our sister-in-law is a fourth grade teacher at the elementary school just down the street. Justin's family is very well known and respected in the community from family-owned businesses. We feel extremely safe here, and there is a true sense of community. There are so many locally owned businesses here, our chiropractic office being one of them. The people here are truly incredible.

WHAT LED US TO ADOPTION

From our first date, we discussed that being parents would be the biggest blessing. We both want more than anything to be dads. Justin's brother and sister-in-law just had their baby girl, and we would love for your baby to grow up alongside her and also our closest friend's children. Being part of all of their lives just confirms we are ready to be parents, making our hearts full. One of our best friends is also adopted, and his story is absolutely beautiful. Trevor also grew up with friends whose siblings were adopted.

OUR LIFE TOGETHER

SUBJECT IN SCHOOL: Science

BOOK: *Where the Red Fern Grows*

OUR FAMILY AND TRADITIONS

Since we live in Justin's hometown, his family lives right here in town near us. His brother and sister-in-law actually live just one street over and can even see their house from our back porch. Justin's parents have been together for 32 years and are still going strong. His father is a firefighter, and his mother is retired. Justin has a brother who is married with one child and a half-sister who is also married with two children.

Trevor's mother and stepdad live a few hours away, but we see them frequently. He has a stepsister who lives in Oklahoma and a half-sister who lives in Texas. Trevor's stepdad is a county judge, and his mother works in health insurance.

We all love just being together, having game nights, lake days and fishing, and traveling when we can. We are both very close to our families and cherish the time we have with them.

DEAR EXPECTANT MOTHER,

Words cannot describe how thankful we are that you are even considering us for your baby. We may not fully understand the position you are in, but please know how much you are loved and supported. You are considering giving the gift of life to two individuals who are unable to do so on their own. We can assure you that your baby will always be loved unconditionally and supported through the good times and bad as they face life, all while having two dads who are already over-the-moon in love with them. We promise to always lift your child up, make them feel their best self, and guide them so their light always shines brightly.

Both of us and our family will treat this child as our own because they are, and so are you. You are already so valued, appreciated, and loved. You are extremely strong, and your child will always be a reflection of you: both beautiful, both brave. We promise to always carry your love and put them first. Again, from the bottom of our hearts...thank you.

***With Love,
Justin & Trevor***
