

Corbin  
AND Jafet

## about us

Hi! We're Jafet and Corbin, and we are outgoing and friendly individuals who like to explore and try new things. Some days we are out adventuring, while others we are at home spending quality time with each other, family, and friends. Jafet is a noncommissioned officer in the military, and Corbin is a project coordinator who works remotely from home. We both enjoy cooking and trying new food, especially when we travel. Our outdoor activities include playing volleyball, exercising, and running, especially with our well-trained and amazing fur babies, as well as hiking, kayaking, or spending time swimming at the beach. When we are not outside, we enjoy watching TV shows and movies, reading a good book, playing video games and board games, or simply cleaning and organizing. We like to admire the simple things in life and create new memories.

## OUR HOME & PETS

We currently live in Georgia, in a small neighborhood filled with parks and trails. There is a high school, middle school, and elementary a mile down the road. The neighborhood is growing, and they are adding new amenities such as playgrounds, pools, and amphitheaters for the neighborhood to use. We have four loving and wonderful dogs who are super well behaved and very friendly. They enjoy going for runs and walks and playing games such as hide and seek.

## WHAT LED US TO ADOPTION

We have always wanted children of our own and have talked about it over and over. We finally decided now is the right time. We started to do research on all the different options for us to have children, and we listened to the good and the bad stories from friends and family. What brought us to choose adoption was that we can do more than just become parents by providing a safe, loving, caring home for a child.

**Musical Group:** Hozier

**Movie:** *Inception*

**Dream Vacation:** Europe

**Holiday:** Christmas

**TV Show:** *Game of Thrones*

**Subject in School:** History

**Book:** *Harry Potter*

## OUR FAMILY

# and traditions

Jafet has three sisters, and Corbin has two brothers and one sister. Jafet has his mother who lives with us, and Corbin has his mother and father. Jafet has eight cousins, and Corbin has fifteen cousins, some of whom were adopted. Corbin currently has one niece and one nephew. Jafet's extended family all speak Spanish and English.

When we are together, we like to play board and card games, spend time with each other, go out and adventure, try new food, or spend time at the beach. We like to spend all the major holidays with one another, whether that means they travel to us or we travel to them. We like to enjoy the moments with all extended family and create those memories that last forever.

dear

## EXPECTANT MOTHER,

We have always wanted children of our own, but biologically, it is impossible or super expensive, with many factors of uncertainty. We are two loving individuals who want to share our love and build a family.

We can only imagine how difficult this decision is for you, and we think it is so brave of you for considering such a difficult decision. There is an old saying that is commonly told, which is, "It takes a village to raise a baby." We believe this is true because a child is not only going to be raised by two parents or one but will be raised by great-grandparents, grandparents, uncles, and aunts and will learn a little bit from everyone. We are so grateful for the opportunity to adopt, which could only be possible from brave women who make the hardest decision.

We are still young but are getting older, and our time for children could not be more perfect. We know one of the many fears that were expressed to us is that the child will not feel like our child as it is not biologically ours, but that is not the case for us. The child will be cared for, raised by, and more than loved by us and our family. We could not be more grateful for the opportunity and want to say thank you for considering us.

***Sincerely,***

***Jafet & Corbin***
