ABOUT US

Jordan is a human resources tech for the state of Rhode Island and loves cars, decorating, all four seasons, and the outdoors. Anthony is a culinary arts teacher and loves baking, reading, and the holiday season. We share a passion for traveling, and love to explore the world and try new foods everywhere we go. We're actually planning a trip to the Mediterranean next year and can't wait to see and taste everything new!

We met at a mutual friend's birthday party when we were just teenagers! We stayed friends for years and after we both attended college, we ran into each other back in our home town. The rest, as they say, is history! We're so grateful to have found each other, and now we spend our time together traveling, volunteering at local animal shelters, and visiting our families.

OUR HOME & PETS

We live in a three-bedroom ranch in Rhode Island. Our neighborhood is amazing, as it's secluded and quaint, but only a short walk to shopping, restaurants, and parks. The schools are great, and only four minutes away! Everyone in our area is friendly, and Jordan's dad lives only a block over. We actually moved back here after moving away so that we can raise our family here.

We are passionate about rescuing dogs. We currently have three rescues: Pierre, Karli, and Jaxson. Sometimes, though, we have four dogs, as we provide end-of-life foster care for senior dogs, too. We're so happy to be able to open our home to them and give them the very best last days, as they deserve.

WHAT LED US TO ADOPTION

As a same sex couple, our options were surrogacy or adoption. We knew right away that adoption was the route for us. We cannot wait to open our home and hearts to the baby meant for our family.

Jordan has always wanted to be a father. He's known since he was a child that he wanted to give everything he could to children of his own one day. Anthony wanted children, too, but wasn't sure it'd be a possibility for him. Now that we've embarked on this journey to adopt together, Anthony is so looking forward to raising a family and giving his children the same magical memories he has from his own childhood.

OUR FAMILIES & TRADITIONS

Anthony has one brother, who also happens to be his best friend, and a lot of extended family. He grew up with many aunts, uncles, and cousins around all the time. We're a very social family and love having big dinners and celebrations together.

Jordan has five siblings and numerous nieces and nephews. Jordan's mom hosts Christmas Eve every year for both of our families, and cooks the traditional Italian seven fishes. We all love spending time together, no matter the occasion.

Family is extremely important to us, and our families are just as excited as we are to welcome a new baby. We dream of the day we get to watch our parents meet their new grandchild, and are so grateful that our child will be so unconditionally loved.

DEAR EXPECTANT MOTHER,

We want to start by thanking you for taking the courageous step you've taken by looking at our profile. We know this is a difficult time for you, and feel honored that you'd learn more about us.

We're Jordan and Anthony, dog rescuers, world travelers, and hopefully someday, dads. Our home is warm and welcoming, and we want nothing more than to raise a family in it. Should you consider us as parents to your baby, we want you to know that your baby would be loved, protected, and supported by us.

When we have a child, our home will be their safe place. They'll be able to come to us with anything, and we'll never turn our backs on them. They'll know they're wanted and worthy. They'll also know about your strength and selflessness, how much you love them, and how grateful to you we are.

Thank you again for taking the time to get to know us a little better. Whatever it is you decide to do, we wish you the very best in it and hope you can feel us sending love to you from afar.
