ABOUT US

We are a loving family of three. We have been eager to begin the adoption process to extend our love and expand our family. Rachelle is a middle school teacher, and Robert is a self-employed business owner who works from home. We have one lovely daughter, Rori, who is currently in 1st grade at a local private school. We are a very active family. We spend weekdays working at our jobs while Rori is at school. After school and work, we try to exercise, and Rori participates in gymnastics, swimming, tennis, track, or basketball depending on the time of year. On the weekends, we attend Rori's sporting events, and we like going to the movies and socializing with friends. During the summer, we like to travel. We like all destinations, from beaches to mountains and everything in between. We are a very blessed family with plenty of love to share.

OUR HOME & PETS

We live in a great, close-knit neighborhood where children are always playing outside together. Some of our favorite things to do as a family at our home and in our neighborhood include playing board games, going for walks, riding bikes, going to the playground, and going swimming. We enjoy grilling and playing with our dogs on the backyard patio. We love hanging out with family and cannot wait to add another member to the family to enjoy these activities with us.

WHAT LED US TO ADOPTION

Our experience with the adoption process is new. Most of our information comes from agencies and friends. We have even talked about it with our primary care physician, who has adopted children of his own. In our discussions with all these sources, we have confirmed that we are headed in the right direction. They all describe it as a journey with great outcomes and results that are everlasting and worthwhile. We both know we want more kids and for Rori to have siblings. We hope we can bless a child with our love and welcome them into our loving family soon.

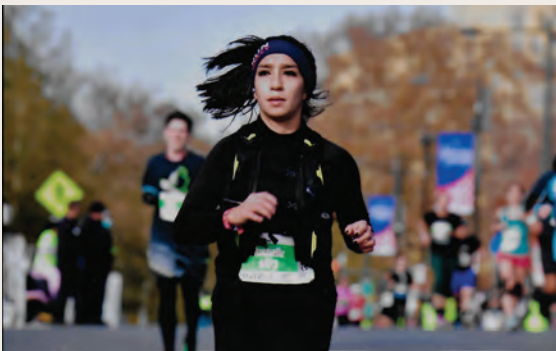

our life
TOGETHER

about
RACHELLE

Occupation: Middle school teacher

Movie: Tommy Boy, The Shawshank Redemption, Top Gun,
Dream Vacation: Greece
Holiday: Thanksgiving, Christmas
TV Show: Seinfeld
Subject in School: Math, science
Book: Where the Red Fern Grows, Lord of the Flies

our family &
TRADITIONS

We have a very large extended family. There are easily over 100 members between the grandmas, grandpas, aunts, uncles, and cousins. We have a family reunion every December. We have been doing this for over 20 years. We recently started a family reunion in June as well. Usually about 60 family members are able to attend these events. Aside from gathering for every holiday with both sides of our families, we also enjoy family vacations every summer. One of our favorite places to visit is our vacation home in New Mexico. We travel there often. Most of our family ski in the winter and play water sports in the summer. This has become a family tradition over the past 10 years, and we are eager to bring another child into this tradition. The whole family is supportive of adoption and is very excited to have a new member to share these experiences with for years to come.

DEAR EXPECTANT MOTHER

To a loving mother,

We know this decision is not an easy one to make, but we know your consideration comes from love. Should you choose us, we promise to raise your child with all the love, values, and morals we are raising our little Rori with. We have prayed for so long to have another child to share our love with, and we want you to know we will always give your child all the love he or she deserves. We hold our marriage and family values very close to our hearts, so please know this child will be loved, cared for, and cherished for their entire life.

We would do all the things that make lifelong memories. Growing up is such a journey. We can already imagine the activities: tummy time, pushing them in the swing, helping them learn to catch a ball and ride a bike, helping with homework, comforting them through their first break-up, and so much more. As with our daughter, we would give them all the best educational opportunities. We also would let them figure out what they like to do, whether it is sports, cooking, chess, debate, etc.

We would be so grateful to have you consider us for this amazing opportunity to become parents to another child. It would be a blessing to raise your child.

With love,

Rachelle & Robert
