BUILDING OUR
family

Talon & Haylee

about us

We met each other through a mutual friend and just clicked from the start. We knew this was a rare type of love. We've been together since 2019 and decided to grow our family in 2020. Our commitment to one another is unlike most. We got married in November of 2021, and we know our forever is with each other. Talon is a quality analyst for a steel tubing company. Haylee works as a store manager for a kids clothing company. We love adventure, trying new things, and going to new places while giving our girls all the experiences life has to offer. A regular day for us is getting our girls ready for school, going to work, and then coming home to family time. Our girls are into Harry Potter. That is our current interest as a family. We are a very family-oriented group. We like to do everything together.

our home & pets

Our home is a spunky little house with room to grow. It's located in a peaceful neighborhood with lots of kids, a brand new park, and a dog park. We have national parks very close to us, where we like to take hikes, fish, and go camping. The school district we send our two kids to now is a great school with endless possibilities and opportunities for the kids to grow. We get the full force of all four seasons, from the beautiful spring flowers and greenery to the colorful fall leaves with the smell of campfires on a chilly night, snow-covered everything, and summer days for swimming, fishing, and camping. We have two dogs, and they definitely have their own perfect personalities.

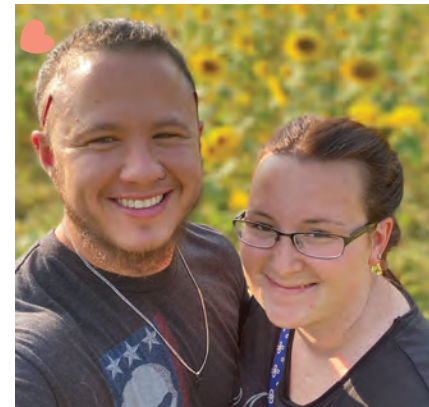

what led us to adoption

When we decided to grow our family, our initial thought was not of adoption. Haylee has two children from a previous marriage, and we thought it would be easy. After a year and a half of trying and two miscarriages, the toll it took on us simply became heartbreaking. So adoption is our way to grow our family just a little bigger. We are so excited to give a child all the love and support we have to offer. We did not come to this decision lightly as it is such a big choice to grow a family. We found we have so much love to offer not only a child but a birthmom. We know how hard a decision like this can be and feel so blessed to have the opportunity to adopt.

Movie: Stand by Me

Dream Vacation: Korea

Holiday: Thanksgiving

TV Show: Good Doctor

Subject in School: Art

Book: Goosebumps

our families & traditions

Haylee has two brothers and a whole host of cousins. They are a pretty tight-knit group that spends most holidays together. Haylee's family is very family oriented. She is very close with her parents, aunts, and grandmothers. Christmas has some of her favorite traditions, from Christmas Eve with her parents, brothers, and their significant others to Christmas brunch with her dad's family. We have a family home in Tennessee for family getaways with her mom's family. She loves anything that has to do with being with her parents as they are so important to her.

Talon has two brothers and a few cousins. They are all over when it comes to where they live, but when it comes to holidays and special occasions, we all come together for some much needed family time. During the holidays, Talon's family has their own traditions that have been around way before he was even born, and they still continue to this day. We have a vacation spot in Florida we go to every year and have traditions of deep sea fishing and shark tooth hunting. Family is very important to Talon.

OUR LETTER TO A

loving mother

Dear expectant mother,

We hope you have found what you may be looking for in our profile. We want nothing more than to grow our family with the deepest wish of giving you peace and reassurance. Should you choose us, we will raise your child with all the love and support we have to offer.

We can't begin to imagine the struggles you have and the difficulty of deciding what path is best for you and your precious child. All we can do is say thank you for considering our family to love and cherish your little one. We promise your baby will be loved unconditionally with two big sisters to protect him or her. We promise no matter what, your baby will know your choice was made out of love. Should you choose us, we want you to feel confident in your choice and whatever contact you choose to have.

We know this choice has its upsides and downsides and hope you can find peace knowing your child is safe, loved, and healthy. We can't wait to add a small addition to our lives. Our family is so excited to be a part of this experience, and we are so humbled at this opportunity.

With love,

Talon and Haylee
