## ABOUT US

Family is the most important thing to both of us. Aaron was raised by a single mother of three children. His mother taught him to work hard, be independent, and always care for others. He is also the middle child and only son of his family. He has spent his life in public service in various fields. Cameron is an attorney who also works in public service. We enjoy going to the movies, the zoo, and the science museum. We also enjoy finding festivals and local events to attend together.

## OUR HOME + PETS

Our two-story home in Texas has a large backyard and plenty of room for a child. We are one house away from an elementary school, which has a side gate that allows parents on our street to walk their children to school. Our neighborhood also hosts many events at the parks and farmers markets and holds decorating contests for Halloween and Christmas. We are near the museum district, theater district, and several sports stadiums. We have two dogs. One is a beagle mix we rescued. He is nine years old and is very calm and loving. We also have a seven-year-old pug. We call him a clown because he is always doing silly things, but he is also our shadow and likes being close to us.

## WHAT LED US TO ADOPTION

We are excited to welcome a child into our family. We have been in a committed relationship for 11 years and got married on our 9 year anniversary. We have not taken the decision to adopt lightly. We truly feel like this is the right time to start a family. We thought of all the things a child might need and made sure that we could provide for that child. We know we can provide a loving and supportive home. We recently moved from a townhome to a larger home with the idea that our family would one day grow. The entire time we were house hunting, we had a child in mind. When we approached our family and friends about our decision, they were thrilled and very supportive. They are just as excited as we are to welcome a child into our family.

# our family AND traditions

Aaron is the middle child with two sisters, a step-sister, and a niece. We live about ten minutes from his mom and stepfather, whom we see at least once a week. He has several cousins, many of whom have recently started having their own children. Most holidays are not only spent with his immediate family but also aunts, uncles, and cousins. Aaron and his sisters are very close, and we often vacation with them both separately and as a family.

Cameron has one younger sister, whom he is very close to. Cameron's mother and sister are neighbors and live about 15 minutes from us. We enjoy meeting them for dinner and having game nights. They like going on cruises, so we aim to go on at least one together every year. Cameron's dad lives a little farther away, but we see him for most holidays and special occasions.

EXPECTANT MOTHER,

Thank you for considering us. We know this is a difficult decision for you. We promise to love this child with all our hearts for as long as we live if you choose us. Please know we came to the decision to adopt after much thought and consideration. We feel as though we are prepared to give a child a stable, loving home. We also have a large family that is ready to welcome this child. We would be forever grateful if you chose us to provide a loving home for your child. We would provide a home full of love and laughter.

We cannot put into words how excited we are at the prospect of becoming parents. We have always dreamed about having a child. We cannot imagine having to make a decision on a prospective family, but just know if you choose us, our hearts are full of love and ready to welcome your baby.

This is a once-in-a-lifetime experience, and we would be honored to go on this journey with you. We understand you are making a tremendous sacrifice and would be forever grateful to share a child with you.

WITH APPRECIATION,

*Aaron + Cameron*
