

Julian + Nick

building our family

LIFELONG
ADOPTIONS

about us

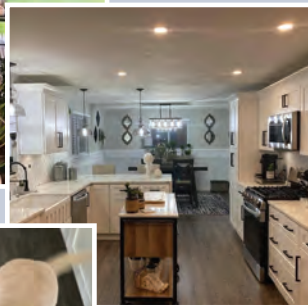

We have been together for the last seven years. We knew immediately we had found our person. A chef and a teacher make the perfect pairing. Our love and life together only grew from there. We moved in together, adopted a fur-baby to add to our other two, and in 2020 bought a fixer upper we call home. Julian is a calm, laidback kind of guy who is up for anything, while Nick is more of the systematic, kindhearted soul. Together we create a balance that works flawlessly. We both have a love of family, dogs, food, travel, movies, and experiencing life together. From the beginning of our relationship, we shared the hope and dream of starting a family with one another, and we are very ready to make those hopes and dreams a reality. We are ready for the missing piece to our pairing, a child. We are looking forward to giving all our love to them.

our home and pets

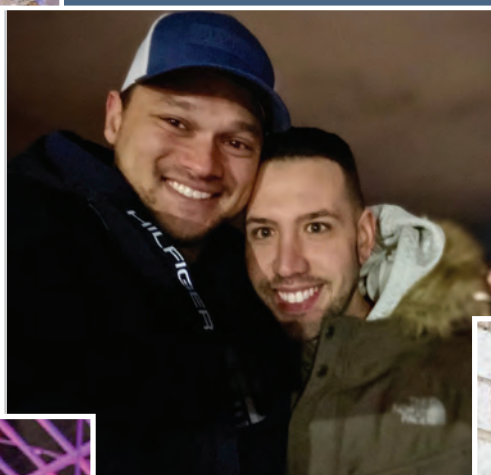

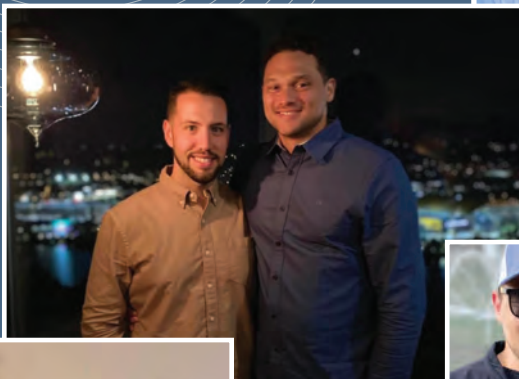

Our home is situated on two acres of land next to a horse farm and a beautiful creek. We are close to many great parks, restaurants, and attractions. We live in a top-rated public school district. Nick is actually employed in this district as a kindergarten teacher. Julian also works very close by at a restaurant, where he serves as the executive chef. The home we have created is warm, cozy, and full of love and happiness. We made our home into a place where all are welcome and with growing a family in mind. We are the proud dads of two fur-babies: Bailey, a golden retriever/Labrador mix, and Quinn, a yellow Labrador retriever. Both girls are eagerly awaiting their human sibling!

what led us to adoption

We both want to be dads more than anything, and this was one of the characteristics that drew us to one another. We knew adoption was the way we wanted to build our family. We have witnessed how adoption can create a complete, loving, supportive family. We know we both have so much love to give and cannot wait to share our family, our traditions, our home, and all the love in the world with the child who is meant for us. We are confident we can provide a loving, healthy, and fun childhood full of experiences and endless opportunities. We want to express our extreme gratitude to you for considering us as future parents!

BOOK: Who You Were Made to Be

our family

+ traditions

Our families mean everything to us! Nick has an older sister who is married and has a two-year-old son. We love him immensely! Nick's parents have been married for over 50 years and are still very much in love. We get together for many movie nights, holidays, trips, and dinners. Julian, Nick's mom, and his sister love cooking and are amazing at it. His mom and dad own a second home in Florida, and family vacations are a wonderful part of our lives.

Julian has three younger sisters and a younger brother. His mom is an amazing part of our family. He has two nephews who have a love of video gaming, movies, and sports. His aunts and grandmother also have been a big part of his life. Julian's family lives a distance from us, but we remain in contact often. Julian and his mom talk daily. They share a love of the outdoors, cooking, and family traditions!

Your child will grow up surrounded by so many amazing people who are devoted, kind, and thoughtful and will show them unconditional love and care.

dear
**expectant
mother**

To A Loving Mother,

We want to thank you for the time you are taking to learn about us. While we are overjoyed with excitement and anticipation for the day we are able to add a child to our life, we want you to know we will support you entirely throughout this difficult journey.

We are so excited to be there every step of the way as this child grows into their own and develops their own personality. We will support them endlessly and provide them with a safe, caring, and loving environment. We are looking forward to sharing our love and family with them. As your child's adoptive parents, we promise we will provide your child with a home and life full of love, fun, experiences, and support. Your child will experience the best life can offer. We will always teach them love, kindness, acceptance, confidence, and curiosity.

We would be eternally grateful for the gift you would be granting us: the gift of fatherhood. Your child will always know you as their first love, their ticket to this earth, and a woman filled with love, bravery, and selflessness. We are open to whatever type of adoption you choose, but please know they will hear about the amazing woman who brought them to us and made us a family. We hope you will consider us as parents for your child, but know that whoever and whatever avenue you select, we wish nothing but the best for you, your life, and your baby.

With Love,

Nick and Julian
