# ABOUT US

Hello! We are Megan and Jesse from Ohio. We met over ten years ago at a car dealership where we both worked. After a few conversations over lunch, we started dating, and the rest is history. We have now been married for seven years and have built a wonderful life together. Megan has been an automotive technician for 12 years, and Jesse has been the office manager at the BMV for ten years. We are both hard working and motivated but also love to take time to spend moments with our family and friends. We love to travel and explore new places, but our happy place is at the lake on our boat. We find that our opposite traits are a perfect balance to each other and support one another through all of life's ups and downs.

## OUR HOME & PETS

We bought our first home almost six years ago. We love the open layout with plenty of space for entertaining and hosting lots of gatherings. We often host holiday dinners for family and friends. We picked this area because it is close to both of our families. We are close to a popular and well-known amusement park and also a state park, where we love to go boating. Our dogs, Hank and Princess, love to run and play fetch in the backyard. Hank is our four-year-old yellow Lab, who is a gentle giant who just loves love. Princess is our eight-year-old mixed breed who loves nothing more than for us to throw the ball for hours on end.

## WHAT LED US TO ADOPTION

We both come from large, loving families, so wanting to start a family of our own has always been a mutual desire. After multiple unsuccessful rounds of fertility treatments, we made the decision to look into adoption. Looking back on our long, hard journey, we have come to realize this is potentially a blessing in disguise. Being able to have an opportunity to give a child a loving and caring home and giving them all the love we have to give would be the greatest joy of our lives. We have always tried to stay positive through all the ups and downs, and we truly believe everything has led us to this point for a reason.

OUR FAMILIES & TRADITIONS

We both come from very large families, and both of our parents divorced and remarried, which brought even more bonus family members into our lives. Both sides of our families love to come together for social gatherings and special events such as holidays and birthday celebrations. We love to have an excuse to come together and celebrate with lots of food and laughter. Megan grew up boating and going to the lake on big trips, which we have continued.

Megan has three brothers and two sisters, and Jesse has two brothers and one sister. We both are very active in each of our siblings' lives. Both of our parents and close relatives all live close by, providing lots of time together. All together we have 12 nieces and nephews. We also have lots of extended family who span the entire U.S. Our families are so excited for us to add to our big blended family.

## DEAR EXPECTANT MOTHER,

We understand this is an incredibly emotional and significant time for you, and we want to express our deepest gratitude for considering adoption as an option for your precious baby. Your courage and selflessness are truly admirable.
